Designed for Workplace Testing

NOBODY DOES IT BETTER THAN LIFELOC

Reliable & Accurate

Powered by 4 AA alkaline batteries the EV30 can operate for up to 160 hours on one set of batteries. With the Battery Status Display always visible, you will never be caught short on power when conducting a test. US DOT approved and listed on the Conforming Products List (CPL) as an evidential breath-testing instrument, the EV30 bolsters the Lifeloc tradition for accuracy and the highest quality.

Easy to Use

Plain English, easy to understand user prompts guide you through everything from operation to calibration. Both calibration and cal check can be performed in two minutes or less.

Affordable

The features you need at a price that fits your budget. Upgrading to Lifeloc quality has never been more affordable.

Technical Support

Lifeloc's Five Star Customer Care sets a new standard... the standard for fast, friendly, professional and affordable service.

Equipment Training

Lifeloc Technologies utilizes a national network of Certified Master Trainers to provide you and your staff the certifications required to meet your specific needs. To locate the Master Trainer in your area, please call 1-800-722-4872 or email training@lifeloc.com.

The EV30 evidential breath alcohol testing instrument, portable impact printer and dry gas calibration kit all in one convenient carrying case.
